

22' Dauntless Sloop – home required

22ft Dauntless bermudan sloop, restoration project, in not very good condition, though restorable, must be disposed of rather quickly. It has a two cylinder Stuart Turner engine which has been overhauled since it was last used, and all spars and sails etc. It does not have a trailer.

I would be happy to let it go for nothing (or perhaps a song) if you know of someone who would like it and would be prepared to remove it from outside my present house here in Malvern.
